

DRAWINGS

Figures 1-4 have been replaced.

Applicants submit replacement drawings which includes newly added Figure 4 that shows every feature of the invention as specified in the claims and is described on page 8, lines 12-20 of the specification.

## REMARKS

This is a full and timely response to the Examiner's Amendment mailed on September 17, 2009 (Paper No. 20090904).

### I. Specification

Applicants comply with and accept the Examiner's amendments regarding the specification. The text on page 9, lines 9 and 18 has been replaced in accordance with the Examiner's request.

In addition, Applicants have amended the disclosure on other pages of the specification as indicated in the "Amendment to the Specification" section of this Response and respectfully submit that no new matter is added.

### II. Drawings

The Examiner objected the drawings stating that the drawings must show every feature of the invention specified in the claims, specifically as recited in claim 6. In addition, the Examiner stated that Figures 2 and 3 illustrate a field effect transistor having a source coupled to the secondary power source (112) and a drain coupled to the second diode (104) and that the drain is not coupled to either the first diode or the device to be powered.

In compliance with Examiner's request, Applicants submit herewith a newly added drawing labeled Figure 4 that shows every feature of the invention as recited in claim 6 and illustrates a field effect transistor having a source coupled to the secondary power source (112) and a drain coupled to the second diode (104) in which the drain is coupled to the first diode and

the device to be powered. Figure 4 is supported at least on page 8, lines 12-20 of the specification.

In the event that Applicants owe any additional fees that have not yet been paid, Applicants request that the Office charge any required fees or credit any overpayment to Duane Morris LLP Deposit Account No. 04-1679.

Respectfully submitted,

Date: November 18, 2009
